## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 02 October 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### *Acknowledgements*

The Amendment filed by the applicant on October 2, 2003 is acknowledged. Claims 3 and 4 have been cancelled, and Claims 6 and 7 have been added.

### *Drawings*

The amendment to the drawings was received on October 2, 2003. These drawings are acceptable.

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 2 and 5 – 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Zeuner et al. (US 5,501,152). Zeuner discloses an air bag gas generator including a container having an outer shell (2 in Fig. 2), a gas initiator disposed in the container (6 in Fig. 2), a squib disposed adjacent to the gas initiator for igniting the gas initiator (5 in Fig. 2), and having a squib holder with a shoulder (see attachment). Zeuner also discloses a cylindrical partition (1 in Fig. 2) disposed in the outer shell for dividing the container into a plurality of gas initiator chambers (6, 3 in Fig. 2). However, Zeuner does not disclose projections projecting from an inner peripheral surface of the partition so that when the squib holder is inserted into the partition, the shoulder of the squib holder abuts against the projections to position the squib. Zeuner does, however,

Art Unit: 3616

disclose projections projecting from a peripheral surface of the squib holder and abutting with a shoulder on the partition member. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to switch the projections from the squib holder to the partition member, since it has been held that a mere reversal of the essential working parts of a device involves only routine skill in the art. Regarding the location of the shoulder on the squib holder, it would have been obvious to one having ordinary skill in the art at the time the invention was made to form the shoulder at an upper peripheral edge of the squib holder contacting the partition, since it has been held that rearranging parts of an invention involves only routine skill in the art.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1, 2 and 5 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 3616

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
